

**Write a Java Program to remove all white spaces from a string without using replace().**

```
package pblm;
import java.util.*;
public class pro2 {
    public static void main(String[] args) {
        Scanner s = new Scanner(System.in);
        System.out.println("Enter The String:");
        String str = s.nextLine();
        char[] a = str.toCharArray();
        String str1 = " ";
        for(int i=0; i<a.length; i++)
        {
            if(a[i]!=' ')
                str1=str1+a[i];
        }
        System.out.println("Input String Without Spaces : "+str1);
    }
}
```

**Output:**

---

```
<terminated> Pro2 [Java Application] C:\Program Files\Java\jre1.8.0_251\bin\javaw.exe (09-Jun
Enter The String:
Alvas Institute Of Engineering And Technology
Input String Without Spaces : AlvasInstituteOfEngineeringAndTechnology
```
