Jsp code to display today's date and time using expression tag

```
<html>
<head><title>JSPApp</title></head>
<body>
<form>
<fieldset style="width:50%; background-color: #ccffeb;">
<legend><b><i>JSP Application<i><b></legend>
<h3>Current Date and Time is :</h3>
<% java.util.Date d = new java.util.Date();
out.println(d.toString()); %>
</fieldset>
</form>
</body>
</html>
```
